NEWLY INSTALLED OR RELOCATED BOILERS

Before placing a newly installed or relocated boiler in service, the boiler owner or the installer must notify the State Boiler Inspection Program per the following statement in statute.

Before the installers of any boiler have boilers placed in service, they [owners and/or installers] shall notify the section, which, within ten days or as soon thereafter as possible from the date of receiving such notification, shall send an inspector to examine said boilers to determine that the construction, material, bracing, fuel and fluid supply systems, control apparatus, combustion air and ventilating air, electric wiring, piping, and all other parts of such boilers are such as to assure the safety of the boilers.
[Colorado Revised Statutes 9-4-106(2)]

The Installation Application is available on the [Forms page](#) on our website.

Submit the completed application to us via email to catherine.johnson@state.co.us or at the following mailing address.
